- 16 Student Performance
- 17 Human Rights & Human value Education
- 18 Teacher Stability and Salary
- 19 Technology in Teaching
- 20 Gender Equality Awareness Education

Why CSR – 2020- Act Locally – Think Globally

Third Party recommendations has become the need of the day and if that is also from a notional Level Non Profit, which maintains an high level of Neutrality, accountability and trust worthiness, then the acceptance of the people becomes high. Within the last decade, third-party recognition has emerged as a critical element impacting an institution's perceived success including its professional reputation, organisational advancement and perhaps more important, business development opportunities. While third-party recognition comes in many forms, the collective result of such accolades is confirmation of an institution's trustworthy talent as well as an overall enhanced professional standing within its area of expertise.

What is CSR - 2020 - Know The Position Of Your School

CSR-2020 is an initiative of Lead India Foundation which intends to bring a positive impact in the city about the schools of that area. It is seen that, people in most of the cities want to know about the school or institute where they want to send their child. But, at the country level there are very less accredited institution, if they are accredited not properly published in the public. Most of the Schools want to get their rank in the country level, but due to some other constraints they could not and CSR-2020 will fulfil this need of the Schools.

TWO SURVEYS, ONE RANKING: HOW WE DO IT

LEARNING EXPERIENCE 30%

SCHOOLING EXPERIENCE 15%

RETURN ON INVESTMENT 25%

FUTURE ORIENTATION 10%

BRAND VALUE 30%
