Arrange different Causes in your Locality to raise money for the benefit of the society in collaboration with Lead India Foundation and Give Globally USA.

Through the Give Globally Charity Rally, Give Globally has been planning to promote the supply of Ambulances to hospitals, clinics and non-governmental organisations (NGOs) working in Give Globally Foundation Network. Since Give Globally Foundation has a concept to concentrate most of its work in rural and urban health issues, we strongly believe that ICU on wheel should be available to each and every part of India in the urban sites and the remotest to the remote part of the country. So that, no single person should feel the deficit of health services in their area.

In 2016, 25 ambulances will be donated to NGOs to work in hospitals and clinics in India. More and more NGOs encouraged to apply to receive ambulances, and are currently being assessed.

We also noticed that, there is a great shortage of emergency equipment for each ambulance including respiratory equipment, heart monitors and medicinal supplies as well as tools. Technical equipment that breaks is often not replaced. People are not always suitably trained to use the equipment and there may be lack of maintenance and technical support.

Since Give Globally Foundation opened its doors and started facilitating ambulances in Give Globally Foundation Network as per its terms and conditions, number of other organisations have approached the charity with the hope of obtaining an emergency vehicle. Give Globally will donate as per its terms and conditions, ambulances, on a zero cost lease arrangement. For organisations wishing to obtain a vehicle they must go through a process that ensures that they have a real need for the vehicle, that they will look after the vehicle, that they have a budget for its day to day use, that they use it responsibly and that they provide periodic reports to Give Globally Foundation on its usage. This new system should ensure that the ambulances are helpful and benefit many people for as long as possible.

### The Objective of Ambulance Project

The main objective of this project is to provide at least 25 ambulances to the NGOs working in the different part of India to assist people in their emergency health needs. 10 ambulances will be given to the members by selection process only to those NGOs who meet the eligibility criteria and 15 Ambulances will be given under lucky draw option. It has been seen that, most of the NGOs are dedicative in doing the health services in their area but do not have the capacity to do so and Give Globally Foundation will materialise this through its networking and Fund raising concept. Please Note that through this program we are generating money to assist NGOs to help the humanity.

All the Participant NGOs of this program, will be treated as the member of Give Globally foundation after successful completion of five months of the application, only if, they are showing sufficient proof that they have successfully made the donations as per the eligibility criteria.

The Ambulance project is purely under fund raising program of Give Globally Foundation and all the NGOs who are interested to apply for this project must meet certain criteria to avail it. Apart from Ambulance under this project Give Globally foundation Intends to provide 50 laptops, 100 smart phones under Lucky Draw options, where all the members must meet the eligibility criteria to participate in the Lucky Draw Option.
