WHAT WE ARE ABOUT

Lead India and Give Globally has embraced the vital role that civil society participation plays in the fight against poverty in the region. From planning and design consultations to project implementation and monitoring, civil society's participation results in more effective and sustainable development efforts.

Because youth and youth-led organizations are important members of civil society, Lead India and Give Globally started the Youth Initiative - now called Lead India and Give Globally Youth for India - in 2013, to support young people in contributing effectively to development. It is a program managed by Lead India NGO and Civil Society Center to mainstream youth participation in Lead India and Give Globally operations as it believes that empowered youth are innovative and effective development.

WHAT DO WE DO?

Through projects, knowledge events, and use of social media, Lead India and Give Globally People for India facilitates engagement among People, Lead India and Give Globally, governments, civil society organizations and other stakeholders to actively collaborate in development and policy discussions.
