LEAD INDIA is a professionally managed progressive not for profit organization in the field of law, education and development. Established in the year 1999 by eminent personalities from various fields, some of who are academicians of international repute. Since its inception, LEAD INDIA has brought together the best brains in the field of education in an endeavour to make the younger generation with fundamentally stronger and to nourish their brains for a bright and enterprising future. LEAD INDIA is working towards helping school, teachers, students and parents get an exact picture of the level of scholastic skills of the students in their future career choice. This is being done through City Level Scholastic Talent Search Examination.

Fundamental Revolution

The focus on fundamentals is so important, that when the child finishes studies/graduates, he/she will face the competitive world with equanimity, armed as He/she is, with these fundamentals. Even while opting for higher studies, the student has to go through a complete scan of what he/she knows and how much. Exams like IIT-JEE, AIIMS, AFMC, AIEEE, CAT, SAT, GRE, GMAT etc. are so designed to test the fundamental strength of a student. Hence the need of the hour is to build a fundamental base as strong as possible which will help a student to decide his future.

This exactly is the philosophy behind the IDEAL INDIAN CLUB is to inspire, empower and education young Indians in an innovative and vibrant way. Hence we call it the Fundamental Revolution. LEAD INDIA also realizes that it cannot fully achieve its objectives unless the teaching fraternity is equally made aware of the urgent need for innovation in teaching methods for strong fundamentals of a student. Hence it aims at bringing about a speedy and steady change in the way Scholastic education is being imparted in the country.

LEAD INDIA eventually aims to become a Centre of Excellence for promotion of quality Scholastic education through research, especially in the area of Scholastic education and subsequent training of teachers in new teaching methodology.

We are conducting workshops/seminars on MIND & MEMORY MANAGEMENT, by teaching them various aspects like when to study, where to study, how to study, and finally WHY TO STUDY. These concepts are being put together scientifically, by great western and Indian psychologists, educationalists and psychiatrists. Never before has a workshop of this kind been made available to students, and we are confident that students will benefit both psychologically and mentally. We are also sure, participation in the seminar will make students better oriented and focused.

We have a lot of plans for this programme and intend to introduce it all over the country in the near future. We invite people who have such IDEAs to share with us.
